A diagram illustrating a relationship between two C++ classes. At the bottom is a light gray rectangular box containing the text `LinReg_LA_adapt::rad_adapt`. A blue arrow points vertically upwards from the top center of this box to the bottom center of a white rectangular box above it. The white box contains the text `smc::adaptMethods<rad_state, smc::staticModel Adapt >`. This represents that `LinReg_LA_adapt::rad_adapt` inherits from or specializes `smc::adaptMethods`.
